By diagnostic category, specialty service or discipline:

Amputee ▾

#### Amputee

A program designed to assist patients with upper and/or lower extremity amputation. Specialized rehabilitation services, including assessment, preventative measures, treatment, and discharge planning are provided to amputees, promoting their optimal level of function.

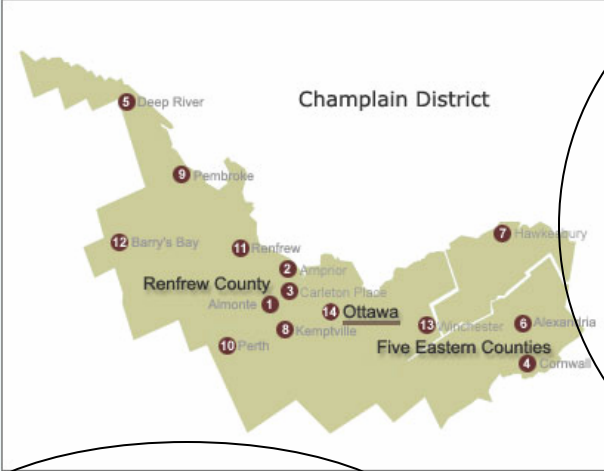

The results of your search are displayed at the bottom of your screen. Click on any of the sites for more information.

Find a rehabilitation service by facility:

Click on the desired facility. If you would like facility information for facilities located in Ottawa, click on the last link in the list.

**Find a Rehabilitation Service by Facilities**

Please select a facility in the Champlain District by clicking on its name or its corresponding map number. For example, if you would like to see a list of facilities in the Ottawa region, please click on the **Ottawa** link in the center of the map.
